October 8, 2011

Dear President Kai Tal and Chair Humin Ji,

UMass Boston and the University of Massachusetts Confucius Institute extend our good wishes to you on the occasion of the Cambridge Chinese Culture Center's 20th Anniversary. We congratulate you on your many achievements and outstanding contributions to the communities you serve. Thank you for including the Confucius Institute at UMass Boston in the Center's 20th Anniversary celebration.

China has become a significant international partner to the United States and has an essential role on the world stage. These important and historic developments are encouraging more and more people to learn about Chinese history, language and culture in our ever increasing global environment.

Our UMass Confucius Institute, established in 2006, is still very young in comparison to the esteemed Cambridge Chinese Culture Center, yet we share responsibility in supporting learning about China and appreciation for Chinese language, literature and the arts. Your 20 year investment is a model for us as we develop and advance our own education programming.

I wish your Center well and further success as you continue to serve our community's growing interest in China and look forward to collaborating with you in the future to enhance what we both contribute.

Best Regards

A handwritten signature in black ink, appearing to read 'Kathleen Teehan'.

Kathleen Teehan
Vice Chancellor for Enrollment Management
